PORT TALBOT collect from Security Patrol Van or contact Security on Mobile Tel: 07810 806284.

The unit is an easy to use two-step process of visual and voice prompts. The voice is clear and clearly describes the process that a responder needs to take, the electrodes clearly show where they need to be placed, the manufacturer has designed the system for anyone to use whether they have training or not.

Please also telephone 999 and request an ambulance to attend.

The prompt return of the defibrillator after use is vital for the maintenance of a safe port.

Thank you
