FOREWORD

The South Wales Ports of Newport, Cardiff, Barry, Port Talbot and Swansea are each obliged by The Harbours, Docks & Piers Act of 1847 to publish a schedule of dues, rates and charges. Over the intervening years the ports have come together as a single business unit and it is now practical to encompass all five ports with this single publication.

Schedules incorporated into this booklet are intended to give guidance in respect of the basic levels of charge to be expected in the region. It will be appreciated that the charge list is not exhaustive due to the differing service requirements of each individual customer.

Quotations for traffic enquiries will be supplied promptly upon application to the Head of Commercial, Commercial Manager or Port Manager who will be happy to advise on ABP's resources and facilities, and provide direction in respect of local ancillary services.

Please be advised that ABP's standard terms of payment are as follows:-

Tonnage charge on vessels	Payable on demand, before sailing or on receipt of invoice (whichever is the earlier).
Dock charges on goods, passenger and other trade accounts	Payable on demand unless special credit facilities have been agreed.

Please note that all work is undertaken subject to ABP's Standard Terms and Conditions, a copy of which is available at www.southwalesports.co.uk/tandc
