Swansea, Port Talbot, Barry, Cardiff, Newport and the River Usk

or Cardiff (029) 20835023*

NOTIFICATION REQUIRED

Initial vessel arrival and sailing information should be forwarded to the Local Port Service using the authorised access website. Site access authorisation may be obtained by contacting the Local Port Service during office hours. Bookings for all services and amendments are to be made directly with Cardiff LPS.

South Wales Pilots provide a tidal pilotage service; the service is therefore not 24hrs. Vessels and their appointed agents are urged to make orders in enough time that they can be sent out to pilots in line with the established system that can be advised by Cardiff LPS on request.

Website address: www.abpnotify.co.uk

i. Arrivals

All vessels bound into the ABP South Wales CHA pilotage area and requiring the service of a pilot shall, in compliance with the Pilotage Directions give **24 hours advance notification** of arrival at the Pilot Boarding Station.

ii. Sailings

Vessels sailing from any port or berth within the South Wales CHA pilotage area shall, in compliance with the Pilotage Directions give at least **six hours notice** of their time of departure.

iii. Orders, Order Amendment, Cancellation & Late order

If a pilotage act is ordered within a minimum notice period of six hours a late order charge of £437.34 will apply and pilot is subject to availability.

If a pilotage act is cancelled within six hours of the allotted boarding a cancellation charge of £437.34 will apply.

If a vessel has a pilot on board and that act is subsequently aborted for any reason outside of the vessels control, then the pilotage act will be charged at the minimum charge of £665.96

Amendments to bring an order ahead for the same tide will not be charged, however if the sailing time is brought ahead with less than 6 hours notice of the revised Pilot on Board (POB) time it is not guaranteed that it can be accommodated.

Amendments to delay a POB time for the same tide will only be accepted if it does not impact the tidal program as pilots may be rostered to undertake a subsequent act of pilotage on a given tide. If a delayed POB time cannot be accommodated, cancellation charges may apply if the act of pilotage is not cancelled with the required notice.

iv. Port Talbot Tidal Harbour cancellations (changeovers)

If the cancellation of an order is made less than six hours before High Water, the full Pilotage charges, as set out in clause 4, will apply.

If a cancellation is made more than six hours before High Water no charges will apply.

BASIS OF CHARGE

The gross tonnage stated on the International Tonnage Certificate (1969) is the only measurement accepted for the purpose of assessing harbour and other dues.

ABP reserves the right to impose an assessment of Gross Tonnage for the payment of ships and other dues on vessels unable to produce an ITC (1969). The assessment will be made on a provisional value of tonnage calculated in accordance with a simplified formula approved by the Department of Transport (copy of formula supplied on request).

An act of pilotage will be deemed to commence from the time an authorised pilot boards a vessel.
